me right now if they want to." While the crowd shouted, "no. no." Mr. Castro went on to say that the most difficult problem of the Cuban leadership had been "our ignorance" about how to govern and he added that he was no exception.

people, of course, cao substitute

While stating that he had no immediate solution to Cuba's economic woes, the premier proposed several changes.

He said that committees would he set up at the highest level to coordinate each related economic sector to improve efficiency and planning. At the lower level, collective leadership would be organized at factories with workers having as moch to say about their operation as the administrator and local Communist party officials.

He also announced that a major government and Communist party realignment would be carried out soon, "It is necessary to replace some of our comrades who have spent them-selves under the pressure of

Unity Sought on Conditional 'Yes'

By Peter Grose

JERUSALEM, July 27 (NYT).-U.S. peace-negotiating formula, Her The non-aggression treaty, if goal, it was said, was to avert nervous abstentions from hardline ministers

The United Arab Republic, Jordan and other Arab states have already accepted the plan, including a 90-day cease-fire along the Suez Canal front and the simultaneous opening of peace talks under the auspicee of a UN representative. Other Arab nations and Palestinian guerrilla organizations have denounced it. In Washington, Israeli Ambas-

sador Yitzhak Rabin met for 45 minutes today with Assistant Secretary of State Joseph Sisco, but declined to discuss the subect of was expected that it would be "some days more" before a reply will be forthcoming, he said.]

Israel's reply is pending. A spe cial cabinet meeting has been call-ed for tomorrow, when a minority faction of the cabinet is expected to register misgivings about the concessions required in the diplomatic exercise.

At yesterday's meeting, the cabinet formed itself into the so-called ministerial security committee, with limitation," including that dividing East Germany from West Ger-lication of unauthorized accounts of the meeting.

It was said, however, that Mrs. to ratification until the both of them arguing for a condiproposals, as long as assurances are filmed by French reporters in lem depended on the Americans ed there. received from Washington that neither the military nor the political position of Israel will be undercut in the process.

Riot Police to Test 'Stun Gun' That Fires Bean Bags of Shot

BERKELEY, Calif., July 27 (NYT).—The Berkeley police hope to conduct tests soon of a new "stun gun" in law-enforce-

The device fires four-inch-wide "bean hags" at about 120 miles an hour. The bags weigh about half a pound and they contain

The blow is hard enough to stun or incapacitate the person who is struck. But, because the impact is distributed over an area the size of the flexible bag, the police say it is not hard enough to kill or inflict serious injury except in a freak case. The system was developed by a California rocket maker, MB Associates, which is negotiating with the Defense Department for contracts to conduct two evaluation programs.

Capt. Joseph Hill, assistant to Berkeley's police chief, and two colleagues saw a demonstration of the device on July 15. They were so convinced of its potential that arrangements were quickly made to have the manufacturer donate test quantities of the "bean bags" for experiments by the Berkeley force. The

projectiles were expected to be delivered late this week. "We were very impressed." Capt. Hill said. "If nothing detrimental turns up in our limited, initial explorations, we'll put them in the hands of selected officers to see how we'll they work in actual law-enforcement situations."

Capt. Hill said that the "stun gun" concept had a big advantage over devices that fire multiple wooden plugs and were used by the Berkeley police to break up a July 4 riot. "The bean bags are safer in all respects," he said. they'll hurt, and take a lot of the fight out of someone."

Two Minn. Brothers Become Sisters By Undergoing Sex-Change Surgery

ST. PAUL, Minn., July 27 (AP).-The St. Paul Pioneer Press said in a copyrighted story in its Sunday editions that two half-brothers from a small Minnesota town underwent sex-change operations which, the patients said, were the first performed on

The Pioneer Press, which did not give the last names of the two men, said that they underwent surgery at the University of Minnesota Hospital, We believe it is the only time in medical history that such

a trans-sexual operation has been done on blood brothers," the Pioneer Press quoted Laureine, formerly Cary, as saying.

The Pioneer Press said that the operation was performed on Lauraine, 28, two years ago and on Lenette, formerly Burt, a few months later. After the surgery, court proceedings made the transformation legal, the newspaper said.

Lennette said that she was married for 14 months but divorced her busband. She now lives with her mother and works as a beautician. Lauraine lives in St. Paul and works as a cashlersecretary and also is an exotic dancer, the Pioneer Press said.

Inmate Loses Bid For Sex in Jail

ATLANTA, July 27 (UPI) .--Sex is not a constitutionel right-particularly for prison inmates-U.S. District Judge Sldney O. Smith has ruled.

A federal penitentiary inmate, John Brent Tariton, appealed for a court order requiring Warden J. J. Clark to permit sexual relations during visits by Tarlton's wife.

Tarlton contended that his rights were violated under the Eighth Amendment, which prohibits "cruel and unusual punishment."

Judge Smith acknowledged that sexual visitations had been allowed in experiments by other countries but he knew of 'no case which requires or permits such practice in United States institutions."

German Airports Get Arab Hijack Threat

MUNICH, July 27 (AP).-West German airports were under close scrutiny today following an Arab threat that a plane would be hijacked shortly to force the release of three Arabs held in connection with an attack on an El Al Israeli airliner Peb. 10, an aviation spokesman said.

He said the threats were concen trated on major airports in Hamburg. Hannover and Munich. The Munich prosecutor was unable to say when the trial of the three Arabs would start.

Portugal's Antonio Salazar greeted by the president, Adm. Americo Thomaz.

Treated the People as 'Children'

Portugal's Ascetic and Durable Dictator

By Alden Whitman

An anomaly among modern dictators, Antonio de Oliveira Salazar exemplified the power of a negative personality. He was ascetic rather than explorant, aloof rather than gregarious; professorial rather than demagogic; understated rather than ostentatious. Yet he held Portugal in thralldom for more than 40 years, a rec-ord of durability unmatched by Francisco Franco, Benito Mussolini or Adolf Hitler, his flashier Fascist counterparts and good

friends.... He accomplished this feat by pleasing the rich and conservative landowners, bankers and industrialists — the celebrated "hundred families" by spending up to 40 percent of his country's budget on the armed forces; by muzzling the press and the trade unions; by operating an efficient security polica that was not publicly bloodthirsty; by holding the economy notably stable; and hy keeping the mass of the nation's 9 million people poor and illiterate (per capita income, about \$350, was the lowest in Western Europe and illiteracy was the highest.)

. His dedicated resistance to change in an era of social and political flux extended to Portugal's colonies, euphemistically called overseas territories whose combined population to still in million ricks in the still in nationalist sturings, Angolis and Mozambique, Portugal's chief holdings in Africa, stayed se-curely tied to the mother country. The presence of 100,000 troops in these territories (in 1968) helped of course, to enforce colonial rule, Moreover,

guese cltizenship. Quiet Autocrat

since 1961, all Africans in Por-

A quiet autocrat who sedulously avoided any personal ap-peal to popular passions. Mr. Salazar was nonetheless completely candid about his totalitarianism. "The Portuguese must be treated as children: Too much too often would spoil he once remarked, adding:

"The truth is that I am profoundly anti-parliamentarian. I hate the speeches, the verbosity, the flowery, meaningless interpolations, the way we waste passion, not around any great idea, but just around futilities, nothingness from the point of view of the national good."

On another occasion, drawing a distinction between his dictatorship and Mussolini's, he said:

"Now obviously our dictatorship is similar to the Fascist dictatorship in its strengthening of authority, in the war which it declares on certain democratic principles, in its ristionalist character, on its maintenance of the social order. It is different, however, in its methods of renovation. The Fascist dictatorship is leaning toward a pagan Caesarism."

For his part, Mr. Salazar preferred to work in harness with the dominant Roman Catholic Church, whose moralities and rectitudes he ardently shared. Indeed, Mr. Salazar's Portugal, on the surface, was a remarka-bly staid and straitlaced country, and the dictator's simple and austere personal life, with its daily prayers and attendance at mass, was an example that he hoped his countrymen would follow.

Mr. Salazar frequently explained, in his dry, humorless voice, that his regime was based on essary to defend." They were: God. country, authority, family and work.

"My life is my work," Mr. Salazar often said: It appeared to be true, for his life was cenebitic and frugal and without song, wives or mistresses. A bachelor, he lived in a two-and-ahalf-story yellow painted stone house near Sao Bento Palace, the government seat in Lisbon. It was connected by a passage with a church where he often went to pray. Behind the tenfoot-high, whitewashed walls of the house was a garden of pines, palms and flowers. His only reported hobby was tending the flowers. Apart from a housekeeper, Mr. Salazar shared the house with two daughters. Maria Antonia and Micas, whom he adopted as bables 20 years

Opposition Divided

Although there was opposi-tion to Mr. Salazar, it was divided and weak, a circumstance that permitted him to govern with supreme confidence. He forbade strikes, ignored the intellectuals and kept politics to a minimum. A Western dip-lomat believed that 40 years of repressive tactics had reduced most of the population to apathy. Lisbon, the capital of the Indiana-size country, was, under his rule, an orderly, subdued city, full of quiet, somber, pa-

tient people. This grayness was characteristic of the dictator's life from the outset. Antonio de Oliveira Salazar was born April 28, 1889, at Vimiciro, a village near Santa Comba Dao in Baira Alta province of northern Portugal. His parents were Antonio and Maria Salazar, peasants and innkeepers. Ambitious for their off-spring, they sent their four daughters and only son to literate neighbors for instruction until a village school was open-

ed in 1899, After a year, Antonio qualified for admission to a Jesuit semi-nary where the little prest, as his mother throad him, studied fiftil 1908. Although the youth took preliminary orders, he decided after two ears at Via Sacra College that his true vocation was education.

King Deposed

He entered the University of Colmbra in 1910 at a time of revolutionary upheaval in the country. Republicanism was the order of the day, and King prelude to the introduction of a parliamentary system modeled on Britain's. Political and economic confusion ensued, which created a poor impression on the young university student.

Working his way by tutoring ("tutoring did two things for me: it kept me in the university and it kept me out of trouble"). Mr. Salazar received his bachelor of arts degree in 1914. He was promptly named to the teaching staff, and by 1918 he was a full professor of economics with two monographs —one on the gold-standard and the other on agriculture—to his credit. In 1919 he added another degree—a doctorate in law.

Mr. Salazar edged into politics by helping to form the Catholic Center party, which professed the social principles of the 19thcentury papal encyclical "Rerum novarum." And in 1921 he was one of three Centrists elected the Cortes, or parliament. After one session, however, he resigned to return to academic life on the ground that parliamentary debates were exercises in futility.

Terms Refused

When, in May, 1926, a military coup overthrew the government, the victorious generals asked Mr. Salazar, reputed to be an economic wizard, to take over the ministry of finance. He demanded a free hand to execute his reforms, and, this being refused, he went back to teaching.

Two years later, however, Gen Antonio Oscar de Fragoso Carmona engineered his election as president of Portugal. He promptly put Mr. Selezer in charge of the nation's purse strings. By cutting public spending and by judicious taxation he succeeded, within a year. in balancing the budget for the first time since 1910. Soon, too, he liquidated the foreign debt and lifted the escudo, the monetary unit, to a premium on foreign exchanges.

This feat gave him the levers of power, which he never relinquished until his stroke. He formalized his position as strongman by becoming premier in 1932 and by drafting a con-stitution for his Estade Novo. or new state. Approved by a plebiscite in 1933, the charter proclaimed Portugal "a unitary and corporative state." In practice, there was one party Mr. Salazar's in the Corporative

dent eppointed the premier, wh named the cabinet, which wa not responsible to the assemble

Held Many Posts

In the early days of the ne charter, Mr. Salazar was bot premier and finance minister In later years, and on an interim basis, he also served foreign minister, minister o war and minister for the cale nies. By decree, he initiated workmen's compensation law. form of Social Security and public works projects. He also outlawed strikes.

During the Spanish Civil War. Mr. Salazar gave full sup. port to Generalissimo Francis Pranco, whose government he recognized in 1938. And in this years of ferment on the Berian Peninsula he created youth movement along Hitlerian lines, principally to prepare youngsters for military service and the Portuguese Legion which was dedicated to combatting internal communism.
These organizations proved usful in putting down a popular outbreak in Lisbon just before World War II.

In the war he maintained neutrality at a very considerable profit to the country. The money came from Britain and the United States for use of the Azores Islands as paral and air bases. After the war, Portugal, although shunning the United Nations until 1955, John

ed NATO in 1949. The war created pressures is-Portugal for some measure of democracy, and in 1945 Mr. Se lazar permitted opposition cer didates to seek office. The Mr. vimento Unidade Democratici a loose coalition, was quick suppressed, however, when started to exhibit some strengt: and, in 1948, it was outlawed

as a Communist front. Presidency Declined

When President Carmon died in 1951, Mr. Salazar was of fered the presidency, which h declined, saying he did not pos sess "the moral nor possibly the physical strength to star a new life in a new office. He remained as premier, how ever, acting with undiminishe vigor to counteract opposition. at home and nationalism in th colonies. The latter broke int the open in 1961, when Por tugal possessed the Cape Verd Islands, Guinea, Angola an Mozambique in Africa: the Go enclave in India; Macao b China, and Timor in the Sout Pacific.

The Gos enclave, which has been Portuguese for 400 years was forcibly incorporated int India in December, 1961. Al though there were bitter pro tests. Portugal was obliged to accede to the fait accompl but there was no such accer sion in Africa.

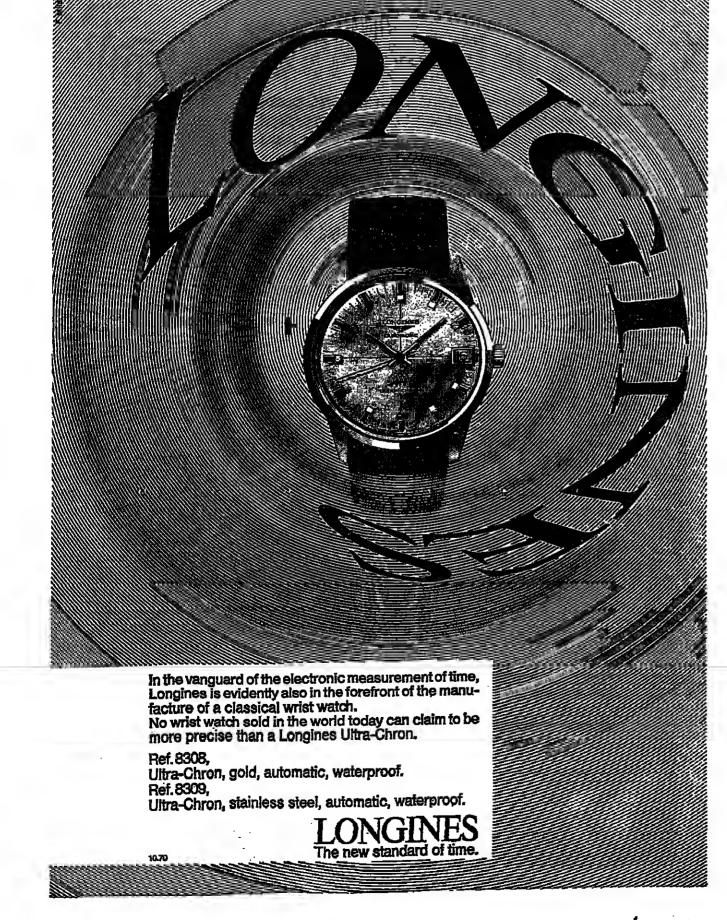

A long and nagging insurred tionist movement began Angola, Portugal's largest d erea) possession in Africa, b

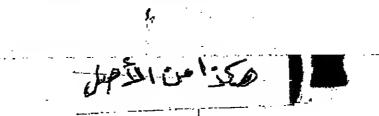

136L To this revolt, Mr. Salazar response was two-pronged: t bomb the blacks into submit sion and to attempt to en corruption and venality amon their rulers and economic & ploiters. Ultimately he was all to contain the revolt or least to maintain superficia order-by force of arms and h instituting some reforms.

Heavy Price Paid The price was heavy. That was a pronounced strain on the budget from military costs Moreover, at least 1,500 of

ficers and soldiers were killer over seven years. But Mr. 54 lazar was stubborn. "Portugal" rights in these territories," hi asserted, "derive from discoery and from occupation 4 ands which were mostly un inhabited."

The cost of suppressing Af rican nationalism was also apperent at home. There was an abortive revolt in 1962 and 0 series of plots that came to nothing. The most serious recent opposition was led by Mario Scares Mr. Salazar discomfited his forces in 1968, however, and had him deported indefinitely to the lonely equatorial island of Seo Tonia

portunity to try different schemes

Why is it so hard for multinational companies to get all the currencies they need on a single line of credit?

Try this test on your bank.

Call up and ask if you can take down your line of credit in Eurodollars, nonresident sterling, and three different local currencies - drachmas, rupiahs, and N.T. dollars.

All at the same time.

Chances are, you'll get a mixed answer. "Yes" on the Eurodollars and non-resident sterling. "No" on the local currencies.

Because most banks don't have foreign branches. And without a branch or subsidiary in a country, a bank can't directly lend the local currency.

At American Express International Banking Corporation, you can get a global line of credit. We can lend you Eurodollars. Non-resident currencies. And a wide range of local currencies.

All on a single line of credit.

Only five or six banks in the world offer you this much flexibility. We can do it because we have 48 branches and offices of subsidiaries. In 17 countries. Six in Germany, four in Pakistan, and three in India. To name just a few.

With this worldwide system, we can adjust your line of credit to fit the needs of your business. We can even switch your currencies at the end of loan periods to adjust to a change in your needs. Or in the risks or costs of foreign exchange.

In fact, we'll be glad to review your choices of currency regularly. To help you get the right currencies in the right places. At the right time.

Which brings us to our philosophy of international banking. We don't think it's enough just to help you do business. We want to help you do it profitably.

American Express International Banking Corporation has 48 branches and substituties handling all types of banking transactions all over the world. We're in these major financial centers: Amsterdam, Athens (2), Basic, Bombay, Branch, Brussels, Calcutta, Cannes, Chitagong, Dacca, Diskarta, Düsseldorf, Florence, Frankfurt, Geneva, The Hagne, Hamburg, Heidelberg, Hong Kong, Kazachi, Kowloon (2), Labore, Lausanne, London, Lucenne, Lugano, Milan, Monte Carlo, Munich, Naples, New York, Ne

Disillusionment in Havana

tator. Not only has his ideology been vague around the edges and his improvisations on Markist themes frequently surprising, but he has carried candor to a point seldom seen in regimes depending on the prestige of a

single man. His account of Cuba's economic (and psychological) difficulties on the 17th anniversary of his attack on the Moncada Barracks was truly devastating. It was a very frank admission of incompetence in government and of failures of will among the people.

The lesson for which Castro's Cuba provides the object is only peripherally a condemnation of socialism. The real moral, if radical youth could only grasp it, is that motivation without qualifications, youth without experience, enthusiasm without discipline, may make a revolution, but cannot make a state. For those sympathetic to Castro, from the very beginning, have spoken of the spirit of his revolution as if it were a good thing it itself. It has been described in terms very similar to those which student activists used to depict their emotions during, say, the seizure of a college building, or which those who sat out the rainy weekend at the Woodstock Festival employed about the sense of unity and happy companionship at the event. Castro's revolution did evoke dedication and a sense of high en-

Fidel Castro is a truly extraordinary dic- deavor. But it does not feed the Cubans. nor sustain that general recognition of the need for working efficiently toward a common goal that is necessary to make any revolutionary society work. Nor did it bring out of the mass, nor instill among the leaders, that dull but essential administrative effectiveness which every social order re-

> There have been reports from Latin Amerthat radical youth there is turning from Castro; that it regards him as aging in revolutionary fervor. Youth, in other words, refuses to do what Castro has done: admit that the bread-and-butter job of feeding a nation requires talents as well as devotion to an ideal; that the best of revolutionary intentions—whether they involve sacrificing other parts of the economy to achieve some prestigious goal in Cuban sngar production or, as in China, create chaos by trying to do everything at oncecan lead to a restricted diet and clientship to the Soviet Union.

> China has taken refuge from its dilemma in "permanent revolution." Castro is still trying to make his revolution work. Neither offers much encouragement to youthful radicals, if they could grasp the facts of these massive failures. But then if they could exercise their critical faculties to that extent, they might not be yonthful radicals in the first place.

SALT and Safeguard...

The administration's claim that success in the strategic arms limitation talks (SALT) with Russia requires congressional authorization of an expanded Safeguard program is the least credible of the many unconvincing arguments made for this antiballistic missile (ABM) system in the past year.

The Soviet Union has suggested that ABMs could be limited at "zero level," rather than at low or higher levels. This apparent readiness to ban missile defense entirely opens an attractive prospect. The hypothetical Pentagon thesis that the Soviet Union might clandestinely "upgrade" its thousands of antiaircraft missiles into an effective antimissile defense is based on the theory that they would be secretly linked to the giant ABM radars. If those radars and the rest of the embryo Soviet ABM system around 'Moscow are dismantled, that would also demolish the argument that Russia could alter the power balance quickly hy deploying secretly manufactured ABM launchers around those radars, which take five or six years to construct.

If missile defense were entirely banned, the Pentagon's argument for deploying MIRV multiple warhead missiles at this time would also collapse. MIRV (multiple inSoviet missile defense if Moscow should build one. With a "zero ABM" agreement at SALT, no one could argue that the Soviet Union could deploy a missile defense in the future faster than the United States could increase its offensive capability to overcome

Yet the Nixon administration, in its new Vienna proposals, reportedly has not proposed a MIRV ban. On the contrary it has made unnecessary demands for intrusive onsite inspection, something it knows is anathema to Moscow, in discussions at SALT of a possible MIRV deployment halt. For 18 months the Pentagon has been permitted to press ahead on testing and, more recently, deployment of the American MIRV.

The Soviet suggestion of an ABM ban evidently has not been rejected, it reportedly remains among the alternative "low level" ABM limits presented in the American proposals. But there are indications that the administration prefers, and will seek at SALT, an ABM agreement that would permit both sides to have systems equal to or larger than the obsolete 64-missile defense the Soviet Union has deployed.

The agreement the administration now projects at Vienna would not halt the strategle arms race, but would continue it in a dependently targeted re-entry vehicle) is seemingly controlled form. The degree of sought to insure penetration of a heavy control, however, would be an illusion.

... And the Future

With ABM systems deployed on both sides, even at a low level, there would be a continuous race for qualitative improvement and, every few years, replacement of the system with a new generation of antimissiles, radars and computers. Far more dangerous, absence of limits on MIRV would permit a rapid multiplication of separately targeted nuclear delivery vehicles in the strategic offensive missile forces of both sides. A fivefold increase is now under way in the American forces from 1.700 to about 8.000 nuclear delivery vehicles.

Moreover, a race to improve the accuracy of MIRV warbeads would also be beyond control, giving each side at some point the capability of destroying the other's fixed land-based ICBMs. Fixed land-based misslies would be made obsolete by this development and both countries would be forced to replace them with aea-based or mobile land-based ICBMs.

The tens of billions of dollars that would be devoured in this post-SALT arms race is reason enough to seek to avoid such an evolution. But even more important would be the dangerous instabilities that would be repeatedly introduced by permitting the stable nuclear balance that now exists to give way to a new kind of missile race.

The issue that confronts the Senate as it Arab commando leadership. opens debate on the defense authorization bill, which includes funds both for ABM expansion and the rapidly growing MIRV deployment program, is not how to help the administration achieve the SALT agreement it seeks. The real issue is how to influence the administration to seek the kind of SALT agreement the country and the world needs. That would be an agreement banning both ABM and MIRV.

The Senate has already overwhelmingly voted a resolution urging the administration to propose a halt in ABM and MIRV deployment on both sides while SALT talks proceed. The need now, in voting the defense authorization hill, is to put in escrow whetever funds are voted for ABM and MIRV deployment until the administration, which has ignored the moratorium vote, implements the Senate resolution.

It may be inconvenient to permit the Mr. Nasser has been so pessimistic LBM and MTRV programs to grind to a in his statements accepting the ABM and MIRV programs to grind to a halt pending the outcome of the SALT negotiations But no strategic necessity rethe initial reaction there to the quires that they go forward at this time, while every imperative arms control demands that they be halted before it is too

THE NEW YORK TIMES.

International Opinion

The Nasser Reply

Nasser thus said yes to Mr. Nixon and the Rogers plan, a dwelled-on yes "in the face of the world." His speech is very clever. Of course he distorts somewhat the famous Rogers plan but his argumentations place Israel in a very delicate position for sending its official answer to the White House. . .

In short, the speech could make one of the war. But Nasser needs a optimistic if one did not have the impression that behind this politico-diplomatic game many things are still concealed and, above all, if words had the same meaning spairing of peace but keen to get for all and sundry. But the dislogue of the deaf does not seem ended.

Egyptian president

of the guerrillas.

CAIRO.—Will Egypt's Gamal Abdel Nasser pull the Arab world with him toward a peaceful solution to the Middle East war? Or, faced with Arab commando Intransigeance, will he temporize and compromise, thus impeding a settler-- at?

Will Israeli intransigeance make these matters academic? Will Israel allow Mr. Nasser to regain the occupied territories as part of a settlement so that he can claim peace with honor?

These are the central questions raised in the minds of Middle East observers by Presideot Nasser's acceptance of the United States eace proposals for seeking an end to the grinding Arab-Israel con-

Mr. Nasser's role in the days and weeks to come will be critical. Even if he has thrust the immediate burden of reply on the Israciis by his favorable response to Washiogton's proposals, the Palestinian guerrillas, by their total rejection of a peaceful settle-ment, have put Mr. Nasser very much on the spot.

Over the months, a showdown between the Egyptian leader and the commandos has been browing. and analysts here believe that it

By tacitly agreeing to recognize the State of Israel in exchange for the return of the occupied Arab territories, and for a settlement to the Palestinian refugee trouble, Mr. Nasser has placed himself in a direct confrontation with the

The commandos reject any settlement that does not destroy the State of Israel as now constituted. And over the months, commando chieftain Yasser Arafat has come to rival Mr. Nasser in popularity among the Arabs.

Thus it will be no easy task for the Egyptian president to force through a settlement over Palestinian objections end the question is whether Mr. Nasser has the strength and the stomach to do

Doubts on Israel

All this, of course, is contingent on a favorable Israeli response to the Washington peace proposals, and it is considered highly doubtful here that Israel is prepared to give up enough of the occupled territory to satisfy Mr. Nasser and the other Arah leaders. This is thought to be the reason

Washington plan.

Egyptian's response to the peace proposals is that Mr. Nasser is pulling off some international But in Cairo, most impartial

Western diplomats believe that Mr. Nasser genuinely wants peace for Egypt.
"Nasser would dearly like a settlement." sald one senior diplomat. "The Egyptians : e tired

settlement in which he will not lose face." Another observer added: "Nasser gives the picture of a man de-

it. He has seen so many opportunities slip by." Should the prospects for s reasonable settlement begin to

emerge as a result of the American initiativs, observers bere believe, Mr. Namer could get most of the Arab work to go along with him. Currently, he is thought to be able to count on the support of Jordan, Lebanon, the Sudan, Libya, Algeria, Tunisia, Morocco and Kuwait.

Syria has always resisted a peaceful settlement, but the Syrians are embroiled in an ing Iraq, and they have been moving closer to Cairo recently. Iraq has been adamantiy against

Mild Summer Mood

By Joseph Kraft

WASHINGTON.—As the Presi- Thurmond of South Carolina and dent begins a midsummer other Southern Republicans. At an break at San Clemente, there is impromptu press conference, the evidence of a changed mood in President tried to soothe the critics the administration.

The lesson of Cambodia—the lesson that there exists a terrible potential for explosive tension in the United States—has struck home. In a faltering way, with much backing and filling and uncertainty as to how to proceed, the White House is turning to the world a milder, more decent face.

One striking sign of change comes in the matter of relations with critics of the Vietnam war. The sdministration may not be altering its basic policy on Viet-nam, hut it is certainly trying to strike a stance that looks less bel-That is the real meaning of the

nomination of David Bruce as the chief negotiator in the Paris peace talks. That is why Ambassador the special fanfare of a National Security Council meeting.

Fence-Mending

On a more private basis, admin-istration officials have been sedulously knitting up relations with critics of the war. Henry Kissinger, the President's chief adviser on national security affairs, has recently had private sessions with Prof. Richard Neustadt of Harvard, president McGeorge Bundy of the Ford Foundation, and the former Paris negotiator Avereli Harriman. Secretary of State William Rogers met quietly at the department with four members of the Senate Foreign Relations Committee-William Fulbright, George Aiken, Mike Mansfield and John Sherman Cooper.

For the same healing purpose, great attention is being given to the presidential Commission on Cempus Unrest under former Gov. William Scranton. As a special mark of concern for the tragedies of the past, the commission will be visiting Kent State University in Ohio and Jackson State in Mississippi. Another sign of change lies in

the revised Southern strategy. The administration recently filed more than 50 school desegregation suits ideological conflict with neighbor- in the South that would never have been filed a year ago. In a complete reversal of past policy, the exemptions to private schools set up to avoid racial integration.

denly made glorious summer. The changes that have been wrought Treasury has refused to give tax are changes in style and tone. But they are changes that put the President more in harmony with To be sure, these steps drew the country as he takes some ease

Antonio Salazar: A Man in a Web

By Tad Szulc

NEW YORK—In March, 1966. John C. Wiley, the late Un this correspondent sat for States Ambassador to Portugal. three nours with Antonio de negotiated the bases agreem Oliveira Salazar in the turn-of-the recalled that Salazar insisted at century sitting room of the Por- time that his government wis tuguese premier's private residence no military aid and would ac in Lisbon. The off-the-record con- none from the United States versation, held during this writer's exchange for the bases. three-year assignment in Portugal and Spain, followed the delivery of Salazar's policies even the Salazar's written answers to a list 'Portugal's relations with of written questions and was more Britain and the United States revealing of the man than any public statement he had ever made or any of his numerous and rather

stilted writings.

Already in his late 70s, Salazar showed himself to be a man ex-traordinarily well informed on world affairs and firmly opinionat-

But the intriguing aspect of this brilliantly developed intellect was that it led Salazar to appreciate and assess current events through a prism of 19th-century thinking. And this, precisely, was the over-whelming theme of his rule over Portugal in the last four decades.

White Burden

Thur Salasar felt that the emancipation of former European colonies in Africa was a colossal error by "misguided" postwar lib-erals, and he held the United States chiefly responsible for this state of affairs.

Listening to him, one could not doubt his sincerity in believing that the white man-and, in this case the Portuguese man-still held the burden of bringing Africa toward a remote maturity.

In practical application, and the corollary of this conviction, was Portugal's desperate and determined defense of Angola, Mozambique and Portuguese Guinea against national rebels. While the official Portuguese propaganda insisted that these territories were not colonies but "overseas provinces" of metropolitan Portugal, Salazar in his own curious paternal way be-At the minimum, it is said, the lieved that they were just that and that it was Portugal's duty to preserve them.

A member of the North Atlantic Treaty Organization, Portugal held a most peculiar concept of this alliance. Because Salazar, the oldfashioned man, held an old-fashioned notion of national honor, he had granted United States bases in the Azores at the end of World War II as an extension of the Anglo-Portuguese alliance, the oldest surviving internationa alliance in the world.

John C. Wiley, the late Un

This has always been true degenerated, in time, to an precedented low level.

An "Agreement"

Though the bases agreement the United States expired in and Portugal refused to renegot it, the American Army, Navy Air Force still remain on the Az under a continuing "gentlem agreement."

kitchen."

he said.

By Jan Sjöby

STOCKHOLM.—To the dismay of lovers of tacos and enchiladas and machacado, Mexican restaurants are rare in Eu-

The operator and co-owner of El Sombrero in Stockholm, William Clauson, maintains that his restaurant is the only real Mexican house east of the mid-Atlaotic ridge.

"To make real Mexican food you need real Mexican ingredients." Mr. Clauson explains. "I've managed to establish fast and efficient supply lines. Then you need a real Mexican chef who knows the unique culinary traditions of Mexico and the subtleties of flavor and fragrance in the Mexican spices. I have two Mexican chefs in the kitchen, working with fine Spanish cooks."

El Sombrero opened in the mid-60s, in premises vacated by an eating house known simply as "The 55" (after the house number) which had just closed down. The interior was completely redecorated in classical Mexican ranch style-complete with a roving guitar player—and exotisms like carne asada a la Tampiqueña and omelette de nopales were introduced to in-nocent Scandinavian palates.

A dinner at El Sombrero may etart with an entremes like cac-tus salad with shrimps, tacos California style, or a dish that translates "little tacos on old clothes." Old clothes ture out to be a filling of beef and red

chile sauce. In the eggs, fish and fowl section of the menu you may choose between cactus omelet, halibut filet in the Vera Cruz manner with shrimps and tomatos, or enchiladas verdes con jocógui — chicken enchiladas with green tomato sauce and

sour cream. Voder the especialidades heading are the classical carnes osadas (grilled fillets of beef) with corn sauce or green pepper stew with rice and beans; the classical filete de ternera (veal fillet) with green tamales and baked cactus; and, of course, the obligatory chile con carne. Mr. Clauson's pride is the lomo de cerdo flambeado en tequila—pork fillet, properly seasoned with Mexican spices

and flambe in tequila at your A novice in Mexican gastronomy may want to settle for a platillo regional, a kind of smorgasbord featuring all the

the house, is the pride of Etlenne Renody. It is delicious, unctuous, and rich. So rich that a half portion is quite adequate. The croustille du batelier is a felicitous invention of the pro-prietor. Shredded cooked turbot. soubise sauce, durelles of mush-

An American of Italian descent, Mr. Ricciardi was president of Walter Kidde and Co., a conglomerate including U.S. mines, shipping firms and security system companies. Nothing to do with fashion. He quit a year ago, raised \$10 million from friends including the Rothschilds here and in England and Prentis Hale, president of the West Coast Broadway Stores." He immediately started buying into the fashion field.

Over the last year, he sequired Oscar de la Renta. Maximilian furs, Coro costume jewelry, Chicmade knits and two handbag companies, Ronay and Coret of Canada. That was only a beginning. "We haven't done luggage yet, or real jewelry, or cosmetics. Those are the fields we think we're capable of handling."

Nor is he limiting his talent scouting to the United States. Mr. Ricciardi was busy exploring the European market last week. He was negotiating with a well-known Paris shoe designer en route to Rome where he had an appointment with jewelry designer Gioconda Cri-

velli. He is also about to close a deal with an international interior decorator. Big Game

for fashion talent is not too unlike looking for game. He is concentrating on fashion because I think the fashion business has never been organized to a rational way. Most fashion houses are small, poorly financed and not very well organized for exports. Also they don't know how to conduct a market survey and how to become ailied with other related

about interesting mergers." Now, some people might think that bigness might ruin fashion talent. "But I think not," he said. "Mergers are very good and designers need financial solidity

know-how, Mr. Ricciardi hopes to push the profits of his newly formed company by 20 percent and even 40 percent in the next few years.

His idea is also to stretch

"If you could apply the designing talent of an Oscar de in the same company, instead of licensing his name, you'd share of the market. Licensing that designers have not stepped over the narrow boundaries of the fashion world.

Unlike Robert Kenniore, another American entrepreneur who bought Rome's Valentino

keep his eyes open. Besides talent, be's also bought 6 1.2 million acres of land in Mozamblque. "It's good investment, too," he said.

Canvassing the world, looking for financing possibilities can lead to frustrating delays and hasty judgements.

To avoid these, government institutions and multi-national companies of today, require unbiased professional advice from their merchant bankers.

With the help of our sponsors, Manufacturers Hanover Trust Company, New York, N.M. Rothschild & Sons, London and Riunione Adriatica di Sicurta, Milan, we are able to provide a range of feasible alternatives, to allow the borrower to choose what suits him best, at the lowest possible cost.

Manufacturers Hanover Limited

Swiss Banks Loaned Penn \$60 Million

WASHINGTON, July 27 (UPI) Several months before filing for l settlements balance gives reorganization under bankruptcy ilication of changes in the laws, the Penn Central Railroad holdings of foreign central quietly borrowed about \$60 million from Swiss banks to pay off U.S. an, which has stated its lenders who started questioning the staction with both these line's financial state, congressional

Assistant Transportation Secretary James M. Beggs told a House in the first quarter, against 11 that Penn decided to pay off appropriations subcommittee June \$200 million it had borrowed from commercial channels rather than answer the creditors' questions. It feared other creditors might "panic" at the results, be said.

The testimony was in support of proposed government backing for \$200 million in bank loans for Penn a plan later canceled.

Mr. Beggs said Penn was suc cessful in refinancing the \$200 mil-lion for about eight months. Then, Mr. Beggs said, "the invest-ing companies that handle this paper began to ask questions as to the state of the road. Rather than answer those questions pub-licly and precipitate or at least run the risk of perhaps having a panic situation develop with their other investors, the Penn Central

chose to pay this money off."
Mr. Beggs said "part of the Mr. Beggs said "part of that was done by going to Europe and borrowing a little less than \$60 million from Swiss banks on a very short-term basis" at 10.1 percent.

Mr. Beggs said he did not know whether the then-proposed \$300 million U.S. guaranteed loan was to be used to pay off the Swiss debt.

Mr. Beggs said "part of that was do some trouble last year, sales and first half (millions) ... 580 83.8 Revenue (millions) ... 387.1 Profits (millions) ... 38.28 Profits (millions)

U.S. Oil: Dark Side to Being Right

By William D. Smith NEW YORK (NYT).-If an it could have a facial expression at all, the U.S. oil industry would be wearing a bitter-sweet smile these days.

The smile would be a result of having seen recent events prove come of its serious forecasts and urgent warnings cor-

Throughout the long and heated political controversy over oil imports, the industry has maintained that foreign sources of petroleum were relatively undependable and that their lower-than-domestic price levels could be quite ephemeral. The price of Middle East crude oil is now at least 75 cents a barrel more than

For more than a decade, nil and gas producers have warned that Federally set 'low' na-tural gas prices would dampen the incentive to look for gas and thus produce a future shortage. "There is a shortage of natural gas today," Secretary of the Interior Walter Hickel reportedly explained.

Upon Us Now John Emerson, energy eco-nomist of the Chase Manhattan Bank recently went even farther, "Never before in this century have we faced such serious and widespread shortages of energy. These shortages

are upon us now."
But being correct, at least on the aurface level, gives the industry no reason to gloat. In each instance it is costing the oil companies money. If they pass on the cost, as they probably will, it cuts into what little affection the public has left for the industry.

The leap in the price of overseas crude oil is a result of soaring tanker costs. But the Arab-Israeli war is the underlying cause. On May 3 in Syria, the Trans

Arabian Pipeline was knocked out of commission by an errant or deliberately aggressive bulldozer. The Syrian government has not allowed its repair,

Industry Worries Prove Too Real

preventing 500,000 barrels a day of Saudi Arabian crude from reaching the Mediterranean. At the other end of the Mediterranean, Libya cut back oil production by 15 percent, or 500,000 barrels a day.

The losses of oil west of Suez and close to world markets has strained tanker capacity. Re-Persian Gulf around South Africa takes six to eight times the tanker capacity.

Charter Rates Rise Spot charter rates have risen to their highest level since the 1956 Suez crisis and are more than 50 percent bigher than during the 1967 Arab-Israeli

Persian Gulf oil is now coming into the United States at about \$4.50 a barrel compared with Louisiana crude delivered to East Coast refineries at \$3.75. There is no chance of e sbortage—Texas and Louisiana will increase their production to meet the need. There is a

very real chance of consumer price increases. FPC Regulation

The natural gas supply and demand controversy is far older. In 1954, the Supreme Court ruled that natural-gas producers were subject to Federal Power Commission regulation. In 1960, that agency began fixing weil-head prices for all gas sold interstate. Producers said the fixings would

kill incentive to drill, Wildcat drilling dropped 40 percent between 1968 and 1968. Geophysical activity fell 56

Some of the drop off may have been artificial; just to show the government. Nonetheless, in 1969 U.S. proved gas reserves fell 12.241 trillion cubic feet, the largest in the nation's history. The previous record drop was in 1968: 5,548 trillion cubic

feet. These are the only declines in the history of the The FPC is now trying to

rectify the situation hy raising prices. The Interior Department is trying to speed up lease sales of suspected gas fields, but is running into apposition from Conservationists. Even if this

opposition is overcome. It will

take from three to seven years for these areas to begin producing Alternate Sapply

In the meantime Canadian sources of gas can be tapped, although Canadian - American relations on energy matters are at an all-time low. Liquefied natural gas quite possibly will reach this country from Algeria, Nigeria or Venezuela. Contracts have already been signed to import Algerian LNG, but Algeria's recent nationalization of American oil company properties puts this source in a very questionable position.

Outlook Dim

The supply outlook for this winter is tight. In the industrial market, which accounts for about 50 percent of total sales, many distributors already have been forced to impose severe limitations on new industrial loads, and there is a real possibility that deliveries ro existing customers may have to be curtailed, says J. W. Heiney, president of the American Gas Association.

The crude oil reserve situation is not much better, according to the American Petroleum Institute. Last year, reserves dropped to a 15-year low of 29,833 billion barrels. The API said simply that

lack of incentives had led to a long and steady decline in exploratory drilling during a period of mushrooming production and consumption. But while oil industry in

recent weeks seems to have won a lot of points, through no fault of its own it may well be losing the game,

Is your money dead & buried or alive & working in **MODERN MEXICO?**

Money is what makes the wheels go around in Mexico's present controlled economic explosion. Alert international investors have discovered Mexico all over again and play a big part in the proliferation of industries, the country-wide speed-up in consumer services, the dramatic growth and robust health of the economy. Which means that here's a true "investor's market"- already established, with plenty of room for you and others like you who search the world's money markets for maximum yield-minimum risk opportunities.

A U. S. Chamber of Commerce report says: "Mexico has enjoyed one of the highest rates of economic growth in the world in recent years." No exchange control, for instance- which means capital, profits, and dividends may be transferred freely in and out of Mexico. A gross national product increase last year of 6.4% with prices rising only 3.5%. No wonder informed observers call Mcdern Mexico the standout example of responsible government and business in Lahn America!

Just take a look at a few things Mexico can do for you NOW:

12% BANK TIME DEPOSITS: These loans to Mexico's Industrial Development Banks offer 11.25% (interest payable monthly) on 2-year terms...up to 12% on 5-year terms which becomes 15% when re-invested and compounded. Ideal for person no longer earning independent income. Minimum investment: \$4,000 U.S. dollars.

* 9% DEMAND DEPOSITS: Earning 9% payable quarterly, here's liquidity for any portfolio. Each Demand Deposit represents a priority claim upon the resources of an Industrial Development Bank Minimum investment: \$ 2,000 U.S. dollars.

* After Mexican taxes.

AWLASA... READY WHEN YOU ARE! If inflation is your worry, why not ride with the times in Modern Mexico? Just compare. If weknew of a better place for your investment money, we'd advise you to put it there. Frankly, we don't. To receive detailed information about Mexico's offerings and investment procedures, drop us a line. No obligation, of course and we'll gladly answer your specific personal questions. Just ask'em!

It is over business to make your money grow in /(exico!"

Montagu Trust

Review of the year to 31st March, 1970, by the Chairman, Mr. F. D. O'Brien Newman

1970, after taxation, is £2,971,000, an and have increased their pro increase of £726,000 compared with the same by £112,000 to £1,288,000. period last year.

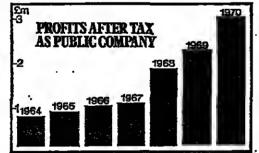

Although a significant element in this year's increase in profits is the result of the return to profitability of the River Thames Insurance Company Group, the net profits of the other interests in the Group have increased overall

The disclosed profit of the Group's banking interests after taxation, and after transfer to reserve for contingencies in the case of Samuel Montagu, has increased by £185,000 to a further record level of £1,744,000.

Bland Welch, E. W. Payne and Bland Payne, the Group's insurance broking subsidiaries,

The directors recommend the payment of a dividend at the rate of 13% in respect of the year, compared with a rate equivalent to 10.89% in respect of the previous year.

		GROW	H-OF GRO	OUP SINCE	1964

BRIDGE

By Alan Truscott

South was victimized on the diagramed deal by a brilliant lead by West. The bidding was routine. South's artificial twoclub opening, combined with a two no-trump rebid after a negative response, showed a balanced hand with 23 or 24. North could have passed this with a worthless hand, but he had enough to continue.

West had discreetly refrained from an overcall that would have helped the declarer in the play by marking the location of the high cards. She then led the heart jack, which was not nearly as normal as it might appear.

The normal lead would have been the ten, because East-West follow the modern expert practice of leading the jack only when that is the highest card in the suit. This procedure often assists the opening lead-er's partner to defend correctly, but it also gives significant in-

formation to the declarer.
In this case West calculated correctly that her partner's hand must be virtually worth-Deceiving a partner is safe enough when the partner will not have a significant role to play in the defense, so West led the heart jack, in theory denying possession of the three ton honors. South won the first trick

with the heart king and cashed four diamond tricks. West dis-carded a club and East two spades. South then led to the club ace and played another club. When West won she put South to the test by leading the heart four. South looked at this card suspiciously and worked out his chances.

If the hearts were evenly divided, he was safe. The lead indicated that East held the heart ace, and he might have started with A-9-x. In that case it was necessary to duck in duminy, and he made this play only to find that West held the heart ace after all and the defense took four heart tricks to beat the contract.

NORTH **Å** J4 ♥ Q52 **♦ 10983** ♣ Q972 ♠ 1098632 ♥ 963 ♦ K7 ♥AJ1084 SOUTH (D) A AQ5 ♦ AKQ4 • AJI05

Neither side was vulnerable. The bidding: South West North East 2 A Pass 2 N.T. Pass 2 \rightarrow Pass 3 N.T. Pass Pass West led the heart jack.

THE LIFE OF EZRA POUND By Noel Stock. Pantheon. 472 pp. \$10. Reviewed by Thomas Lask

EVERYTHING we know about Ezra Pound makes us want to know more. The glimpses we get of him in the "Cantos." "Mauberley," in the edited manuscripts of T.S. Eliot, in the remarks of Joyce, Yeats, Robert Frost, and in the appearances he makes in the careers of William Carlos Williams, John Quinn H.D. and many others sharpen our curiosity.

It's not gossip we are after as much as clarity. What was there about the man that made him such a kinetic force in English and American letters? How was he able to influence men older and younger than himself? What impelled him to make the shameful speeches during the Italian years? His life, too, poses nagging ques-tions: the relation of the artist to society, the nature of esthetic response, the virtues and dangers of expatriation. Everything we read by and about him insists on further explication.

You can learn an enormous amount about Pound from Noel Stock's biography, the most substantial and fullest to date.

Nevertheless, there is a side to Pound that fails to come under the author's scrutiny. The chronological side of the story has been managed with abundance. Pound was such an activist, he fought on so many fronts that simply to keep track of it all and present it in coherent fashion is an act of the first magnitude. But where the story falters

is when it has to deal with Pound when he is not in motion, when it has to come to grips with the psychological springs of his being, with the causes of his actions, not the actions themselves. Very likely. there are no fixed answers, but with the author's refusal to speculate, we never fully see a rounded complex human being at work, only a dynamo giving off incessant energy. Pound was all of a piece:

poet, editor, catalytic agent, art critic, music critic, composer, translator and publicist. To him it was all one: Bullying Harriet Monroe to include. "Prutrock" in poetry, securing a government grant for James Joyce, advising Quinn which of Jacob Epstein's statues to buy Epstein wished that; he domind his own business), editing the Penollosa manuscripts of Japanese translations, preaching C.H. Douglas's social credit theories, fashioning the "Cantos" and waging unending publicity campaigns for himself and his friends. He was a compulsive teacher

who gloried in his pupils, a latter-day Pygmalion breathing life into marble. But he was also selfless and wenerous to a degree little known in the world of magazine and book publishing. Poor most of the time,

sometimes desperately so always provided others first refused to take more the modest amount for himseltake more he felt was to ! a foreign element into li

John Mackey: Quarterback For the Players' Association

NEW YORK, July 27 (NYT). Shortly after his election as president of the National Football League Players Association early this year. John Mackey purchased a booklet on how to conduct labor negotiations.

"I knew I would be involved in our new contract with the club owners," he recalled, "and you've always got to be prepared. If you're prepared, you won't panic. And after studying it and then being in these negotiations for months," he added, smiling. "I think I could be a labor lawyer."

. Ordinarily, the 6-foot 2 1/2inch, 320-pound Mackey is known as a football player. As the tight end of the Beltimore Colts, he was selected os the outstanding player et that position last year on an NFL team covering all eras.

Now, as the president of the Players Association that is involved in an impasse with the owners, he suddenly has emerged as one of the nation's most femous labor leaders. But the irony of the situation is that he's the president and chairman of the board of his own firm, John Meckey Enterprises. "Being on management's side

in my wholesale-food distributing business," he said, "has given me an insight into these negotiations. I knew some of the problems that confronted the owners."

The dispute primarily involves the owners' contribution to the players' pension fund. Because of the impasse, the owners agreed last week to bar experienced players from the league's 26 training camps, resulting in a virtual standstill in team preparations for the son-except for Kansas City. which was given permission to. work out for Priday's game against the College All-Stars. "This is a family argument," Mackey said. "We're not out to

win as much as we are to get it settled amicably. You don't try to win in a family squabble, you just try to get it settled." Mackey is credited by Mal Kennedy, the association's business director, with "holding 1,300 players together for the last 10 days." One coach phoned Mackey, suggesting that one of his best players be transferred to the payroll as assistant coach in order to eid rookies. "Then put him in the coaches'

pension plan," Mackey said. His determination always has been one of his foremost attributes as a player. "He has one speed-full," says

Bill Curry, a teammate.

John Mackey was born in Brooklyn on Sept. 24, 1941, but he grew up with his five broth-

By Dave Anderson ers and one sister in Roosevelt, L.I., where his father was the pastor of the Mount Sinai Baptist Church. His brother Arthur is the pastor there now. His parents are living in retirement in Florida. After a brilliant

> America player at Syracuse University. He joined the Colts in 1963, although he also had been drafted by the old New York

athletic career at Hempstead

High School, he was an all-

Titans. "I wanted to pley in New York," he has said, "but they were in the process of selling the team and Harry Wismer. the owner then, never contacted me. By the time the new owners took over and changed the name to the Jets, I was committed to the Colts."

He didn't campaign for the players' group presidency, and some owners thought he could be "handled" in negotiations. But he has provided strong leadership as the first black president of the Players Association.

"The blacks were happy," one of his advisers says, "but it didn't bother the whites."

His reputation as a "listener" end his habit of taking notes during meetings and phone conversations has impressed his colleagues. So has his ability to challenge the owners. Early in the bargaining, the owners proposed to regulate the players' personal appearance. Across the table, Mackey was wearing a purple jump suit.

"Why do you wear that purple suit?" an owner asked. "Why are you wearing white socks?" Mackey said.

"Because I like them," the owner replied, annoyed. 'I like my purple Mackey retorted calmly.

Packers' Rookies To Get Haircuts

GREEN BAY, Wis., July 27 (AP).-Moustaches and long sideburns are off limits on the Green Bay Packers football team.

Coach Phil Bengtson sent two rookies to their shaving kits when they checked into the Packers' preseason camp with too much facial hair.

'Sbave off that moustache or don't bother to report for prectice tomorrow morning." Bengtson told kicker Tony Fronczak of Milwaukee Area Technical College.

Fronczak was sporting a luxuriant "Fu Manchu" mous-

DOLLARS APART-Nijinsky gallops home an easy winner at Ascot Sunday.

Engelhard Bids to Find Another Nijinsky

- By Gerald Strine

LEXINGTON, Ky., July 27 (WP) .- "Alfie" was one of the songs to be played over the loud peaker system here last week, shortly after the 8th annual Keeneland summer sale had ended. What should have been selected was "Oh Chartie" or "Charlie My Boy," as a sainte to Charles W. Engelhard, the Far Hills, N.J. platinum potentate who had paid \$1,026,000 for 14 thoroughbred yearlings at the four sessions. That's what it's all about, Alfie.

Oh, how Charlie can bid and how he is prepared. Mac Miller, his American trainer, was on the left. David (Cash) McCall his European manager, was on the right. Vincent O Brien, the cool Celt who trains the undefeated Nijinsky for Engelhard, also was about. The only incernible flaw in the millionaire's makeup was hat he occasionally had to press twice on his rigarette lighter. Otherwise, the turi's answer to the movies' Sidney Greenstreet was in comslete command, walking care and all,

One of these not-too-distant years, Engelhard s going to decide he's cornered enough of the vorid's bloodstock market and start breeding its own horses. When that happens, the top will sall out of the yearling sales business and Ribot ill have lost his best friend.

Engelhard paid \$155,000, second highest price f the sales, for a Ribot colt out of Santorin, hus a full brother to the Epson Oaks winner. ong Look, He secured Americanis's first foal a olt by Ribot, for \$100,000. A Hall to Reason alt out of the grand producer Cosman went. n Engelhard for \$100,000—a bargain. And he had o go no farther than \$90,000 to obtain colts by ir Gaylord and Graustark before winding up is record sphirge by bidding \$100,000 for a Sea-

(And two days or so after sale, a syndicate ffers Engelhard \$4.8 million just to keep lijinsky in Europe for breeding. Last reports say. be offer will be turned down.)

Not bad, considering that only nine of the 262 yearlings sold here brought \$100,000 or more. The strength of this auction lay in the \$25,000 to \$50,000 range. At the finish, the grand total

about its own business. Leslie Combs never heard a gavel that sounded as good. Topped off by the \$510,000 brother to Majestic Prince, Cusin Leslie's Spendthrift Farm consignment of 30 head lured \$1,615,000, an average of \$53,833.

old standbys such as Bold Ruler and Ribot continuing as the elite, and Northern Dancer emerging as, perhaps, the heir apparent. 7 ijinsky has put Northern Dancer on the big.

big board. "There's nothing for Nijinsky until the Arc in Paris the first Sunday in October," O'Brien sald. "Maybe the rest will do him good. He's a top horse, in any year. But so, I believe, was Sir Ivor, and I think it's impossible

ing Nijinsky to Laurel for the International. The final decision, of course, will be up to Engelhard. The owner was too busy buying yearings to speculate on Nijinsky's fall future. Things were going too good, at ringside, where he even got

On one of the colts Engelhard purchased; he was being pressed by an agent for a female client. The agent was holding his own until, near the \$100,000 plateau, the lady took another. look at the animal in the ring.

suddenly asked her surprised agent. "Yes, but so was Abraham Lincoln's," the agent replied.

By the time the lady quit laughing, Engel-

was a record \$7,900,000, for an average of \$30,152, a mean exceeded only by the \$30,671 mark in 1968, when 14 fewer yearlings were sold. So who says money is tight in the United States? Once again the yearling market went

"Don't you think his head's a little plain," she

hard had himself another horse.

Inflation Alert

WASHINGTON.—The Nixon administration will aunounce the first in 2 series of "inflation aierts" next month. No one knows exactly what an "inflation alert" is, though it

seems to be a way of alerting the American people as to what products are going up in price so the public will be able to boycott them.

The detalls of the "infla-tion alert" Buchwald have not been worked out, so it's everyone's guess as to how it will be implemented.

Perhaps like this: Let us suppose a rumor is out that the price of ground beef will rise four cents a pound. This is picked up at the topsecret headquarters of the In-flation Alert Command located in the mountains of West Virginia. IAC seods out a squadron of Comparison Shoppers who make a fast swing through supermarkets in Madison, Wis.; Bolse, Idaho; Tucson, Ariz.; and Flatbush, Brooklyn, They must report back to IAC within two hours. It is estimated that luflation can now hit tinis country in four hours.

If IAC's suspicions are confurmed, they immediately notify Washington on the inflation hot line (it's called that because the telephone company has just asked for a raise in rates.

Washington notifies the White House and a meeting of the "National Security Council on Ground Beef" is hurriedly called.

The meeting is presided over by the President, who demauds to know if the price rise in ground beef is a serious attack

Tourists in Portugal

LISBON, July 27 (UPI) .-- A total of 1,237,035 foreign tourists visited Portugal during the first six months of this year, according to the Secretariat of Information and Tourism. It said tlus was a 24 percent increase over the same period in 1969 and the June figure-269,700 -was up 30,4 percent from June,

on the nation or just a diver-sionary tactic to keep the country from knowing of the meat packers' real plan, which is to raise the price on porterhouse-

steak. George Shultz, the President's chief of staff, says all his intelligence indicates that the ground-beef hike is the real thing, and urges the President to call an inflation alert.

The President then goes into a small room by himself with a vellow pad and penell and lists all the options he has.

His blg problem is: Can he call an inflation alert without notifyiog Congress? He asks At-torney General Mitchell, who assures him that he legally can. Mitchell warms the Prestdent he can expect some static from the Senate, but if they are consulted they'll debate the alert to death, and before they're finished ground beef could be up by more than ten cents a pound.

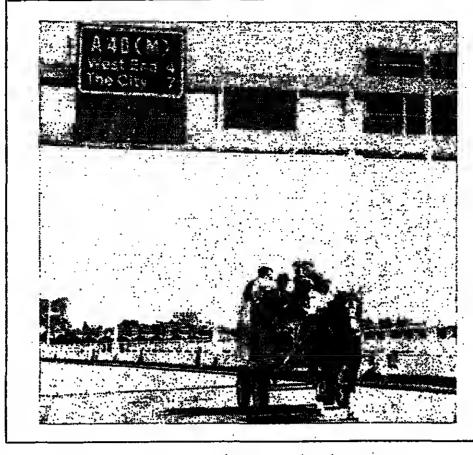

Tile President makes his decision. He goes to his desk and takes out a key and unlocks a box. Then he presses a red but-

too. All over the United States, in every city and town, sirens start screaming. Inflation ward-ens grab their belmets and rush out loto the streets, making everyone go into an inflation shelter or celler.

Cars and all transportation must come to a halt. In 45 minutes, every consumer must be off the streets. By this time, the meat packers start dropping their inflation bombs on the country.

But everyone is in his shelter and there is no one left topside to buy ground beef. The first day, the supermarkets drop it a penny a pound. Still no buyers. The next day two cents a pound. Still nothing. On the fourth day with still no business, the supermarkets put large signs in their windows announcing a sale on ground beef the same price it was before the raise,

When this happens, President Nixon presses the all-clear button, and everyone comes up from his shelter. It takes a lot preparation, but another battle against inflation has been

Horse Power On a Highway

A horse-drawn cart was allowed on London's new Western Avenuc Extension for the first and last time Sunday when contractors gave a party for wives and children of the men who built the 21/2-mile elevated highway.

A New Set of Memoirs From Gen. de Gaulle

By Henry Giniger

PARIS (NYT). - Charles de Gaulle, who was been selfemployed since April 28, 1969, has just turned over to his publisher the fruits of more than a year of labor.

It is a 300-page book that constitutes the first volume of a new set of memoirs. The Meoloires d'Espoir" -- "Memoirs of Hope"—they are called. and they will cover the period from the moment the general retiuned to power in June. 1958, as president of France until the time he left it as a result ot what some Gaullists have bitterly called the "ingratitude of a nation." Beaten in B referendum on regional and senate reform. De Gaulle resigned-3s he said he would-and has never spoken out or taken B public position since.

Instead, the general has looked back; from every indication furnished by opinion polls, this is all right with most of his

fellow citizens. The latest poll, in April, showed that more than 60 percent had consigned the general to the past and did not expect him back. Fewer than 30 percent thought it might he possible in the case of grave events," such events having a particular association

with his name. De Gaulle's first set of memoirs covered the World War II period from the time when, refusing to acknowledge French defeat in 1940, he called on his countrymen on June 18 of that year to continue the fight. When he suddenly left the presidency in January, 1946. after one of several fights with the National Assembly, he entered a period often termed "the crossing of the desert,"

Algiers

It took 12 years to cross it, a period that De Gaulle appar-ently feels is not worth record-

PERSONNEL WANTED

form, since he had no power and little influence on events. Then another grave event, the uprising in Algiers, which many of the general's friends helped create, pushed the Fourth Republic over the brink and brought him back into office.

The first volume, to be published by Plon, is expected to be out toward the end of the year. It will trace De Gaulle's efforts to build a new republic based on strong executive power, end the Algerian war and transform France's colonial relations in the rest of Africa. The title, 'Memoirs of Hope." is believed to express the general's conviction that what he did gave France hope of ogain playing her rightfully prominent role in tha

To write the book, the general who is now 79, became Blmost a hermit. He would allow few visits or other interruptions, and those who did have the opportunity to go to his country

house in Colombey-les-Deux-Eglises reported that he was working with relentlessness, even fury, as if the most important thing he could now do was to leave B political testoment behind him. De Gaulle is said to be still

interested in current events, and his followers, often referred to as "De Gaulle's orphans," ara interested, even anxious, about knowing his current thinking. He is still there, and his silence, far from removing his presence. has merely made it more intriguing. Many of the people in the

forefront of today's political scene, including President Georges Pompldou and Defense Min-ister Michel Debré, were prominent actors in the period covered by the new book. Any judgments the book will have, not only on the past but on those who played a role in it, will have certain impact on the France of today,
